Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 07 January 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 26-41 is/are pending in the application.

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 26-41 are rejected under 35 U.S.C. 103(a) as being unpatentable over Perez in view of Smith.

Perez discloses a speculum and method comprising:

- A handle;
- A shorter member 12 that abuts the cervix;
- A longer member 14;
- Positioning the dilator in the vaginal cavity;
- Pivoting the dilator member;
- An actuator 34;
- The shorter member rotates;
- A coupler 28, 32, and 24; and
- It is at about a 90-degree angle.

Perez lacks the use of a longer member on the bottom and the shorter member on the top.

It would have been obvious to one of ordinary skill in the art at the time of the invention to provide Perez handle flipped with the shorter dilator on top in order to obtain a different view.

Art Unit: 3732

Perez lacks the dilator being disposed at an angle greater than 90 degrees. Smith teaches the use of the increased angle. It would have been obvious to one of ordinary skill in the art at the time of the invention to provide Perez with the angle as taught by in order to get a better view.

Response to Arguments

3. In response to applicant's argument that the examiner's conclusion of obviousness is based upon improper hindsight reasoning, it must be recognized that any judgment on obviousness is in a sense necessarily a reconstruction based upon hindsight reasoning. But so long as it takes into account only knowledge which was within the level of ordinary skill at the time the claimed invention was made, and does not include knowledge gleaned only from the applicant's disclosure, such a reconstruction is proper. See *In re McLaughlin*, 443 F.2d 1392, 170 USPQ 209 (CCPA 1971).

4. The method is a obvious variant of the structure. After the structure of this type is established the method is blatantly obvious. It is a Vaginal Speculum and the method for use has been well known in the art for some time. It is inserted, presses against walls, and then it spreads apart to create a working area. Once the structure has been established, the method is obvious in view of it. The fact that the Instant application claims nothing more than switching the paddles of Perez does not make it outside the scope of obviousness of one of ordinary skill in the art at the time of the invention.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the

Art Unit: 3732

mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
